

## MINING, BUSINESS AND STOCKS.

AJAX WAS MUCH  
STRONGER TODAY.DIVIDEND WAS  
DECLARED TODAY.Sales Were Made as High as  
\$1.37 on the Exchange.

YANKEE CO. ADVANCING.

West Morning Glory in Good De-  
mand—Dexter Firm—May Day Fine-tuned.May Day of Tintic Comes Forward  
With One of \$10,000.

DIXIE PAYMENT DUE TODAY

Amounts to \$50,000—Dalton Deal-  
Louise S. Shipments—Returns  
From Stateline.

Copper Belt Strike.

The directors of the May Day Mining company met today and declared dividends. No. 2 of 2½ cents a share, or \$10,000 payable on July 1st. The dividend last month amounted to \$8,000 and the payment of this sum makes a total of \$18,000 in two months. No change is reported at the mine. Yesterday's statement in the "News" is said to have covered the ground. The lead stakes are looking excellent but the rich silver deposits are not quite so favorable in some places. The Utah directors are scheduled to meet in a day or two to declare the regular monthly dividends of \$2,000 which will make the total amount in paid dividends this month foot up to \$162,000.

FINAL DIXIE PAYMENT.

Means a Dividend of About 32 Cents  
a Share for St. George Co.

The final payment on the Dixie deal was expected today, though it is not paying a certain percentage. It is not possible to say what the payment will go over until next month. The payment claims for \$50,000, \$150,000 having been already paid. The St. George

Copper Company, which made the deal through Willard F. Snyder, the president, has taken a dividend of about 32 cents a share or \$160,000. The property has already been made the basis of a new company capitalized at \$1,000,000 which is now being successfully exploited in the East by W. S. Tucker of New Haven, Conn.

RETURNS FROM STATELINE.

Nephew of the Late Gov. Pingree of Michigan Arrives in the City.

Everett Pingree, nephew of Governor Pingree of Michigan, whose death has just been chronicled, arrived from Stateline today and left for Detroit, Mich., this evening. Mr. Pingree is largely interested in the Ophir mine in that camp. He came west in the beginning of the year, and has been busily engaged at the mine ever since. He says the Ophir is a big mine. It looks excellent on all the levels and enough ore is blocked out to run the mill for an indefinite period. The mine is showing up especially good. The Dawson work on the new terrace for the new mill is already completed and the frame work is now being erected.

A BIG NEVADA COMPANY.

J. E. Bamberger is Named as Vice President of Vulcan Copper Co.

A new New York dispatch announces the issuance of a charter to the Vulcan Consolidated Copper company, with a capital of \$50,000,000. This company is organized under the laws of West Virginia for the purpose of purchasing and operating the Vulcan copper mines in Esmeralda county, Nevada, and will from time to time acquire other mines. Henry Siegel of New York is to be president; J. E. Bamberger of Salt Lake City is to be vice president, and Charles H. Chapman to be the secretary of the new company. The property lies about 15 miles from Goldfield, and is in charge of New Duncan of this city. It is a big low-grade proposition and is said to be well adapted to a leaching process.

Dalton's Interest Purchased.

Arrivals from Marysville report the purchase by W. L. Culbertson, of Mr. Dalton's interest in the Dalton for \$2,500. Mr. Culbertson, it will be remembered, has bought the Dalton for \$100,000, the first payment being \$10,000 down. Next year, Mr. Dalton stood between Mr. Culbertson and the Dalton company, having leased the mine from the company and subleased it to Mr. Culbertson. Some slight friction is said to have arisen hence the above purchase. The mine is said to be looking better in the drift from the No. 8 incline and the prospects of the bond being taken up are said to be very good.

Lewis' 98% Lye.

La Reine Listed Again.

La Reine was listed on the exchange yesterday, and will still be traded this afternoon. The statement to the listing committee of the exchange shows that the company owns four claims in Tintic on which there is a bond for \$10,000, which expires Nov. 8, 1901. The cash on hand amounts to \$900, and the number of shares in the treasury is \$115,000. The company is in debt. About 1,000 feet of tunnel work has been done on the property in addition to several hundred feet of winzes, up to at present.

Low Shippers from Louise S.

L. H. Outzen, of Richfield, expects to go out to Bingham tomorrow to examine the Louise S. in that camp which has recently entered the shipping lists. Mr. Outzen expresses disappointment at the returns from the last shipment which are said to have run less than half of what they were expected to reach.

Some very rich pockets were found in the ore body which can high in silver and gold, but in spite of these bunches the returns from carload lots show a very low average. It is not possible. Mr. Butler has been paid \$50,000 to be paid in ninety days and the remaining \$18,000 to be paid on the 20th day of December, 1901.

Boston Live Stock.

Autumn Reveller: J. F. Butler, the original locator of the Tintic mines, who still owns a five-eighths interest, and will still be traded this afternoon. The statement to the listing committee of the exchange shows that the company owns four claims in Tintic on which there is a bond for \$10,000, which expires Nov. 8, 1901. The cash on hand amounts to \$900, and the number of shares in the treasury is \$115,000. The company is in debt. About 1,000 feet of tunnel work has been done on the property in addition to several hundred feet of winzes, up to at present.

The stomach performs its functions actively and regularly, the food of which it is the receptacle, is transformed into blood, tissue, bone, muscle, quality, which furnishes vigor and warmth to the whole body. HERB-GIRES gives tone to the stomach and promotes digestion and assimilation. Price, 50 cents. Z. C. M. I.

BANK STATIONERY.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

TEACHERS.

Dr. Talmage's new book, "The Great Salt Lake, Present and Past," should be in the hands of every educator. The amount of information it contains relating to the great saline sea, makes it an invaluable work for reference or study.

To Operate in Star District.

A group of six claims near Cook's Camp in the Star district, Beaver county will shortly be made the basis of a new incorporation. The incorporators are R. B. Young, Robert Sher-

wood, J. P. Foster, W. H. Cromer and A. W. Winberg, Jr., of this city. The property consists of the Margarite, Copper Bell Extension, Homestake, Jumbo and Jumbo Nos. 2 and 3. Two or three small shafts have been sunk in different places and some good looking copper is said to be available in the Vickberg Mining company, and it will be capitalized at \$50,000 in ten-cent shares.
